

# DON'T DRINK AND DRIVE

## BOOK A CAB INSTEAD

Stay safe and don't get taken for a ride!

If you value your safety make sure the vehicle and driver you hire is licensed. If you get in a car that is not licensed you may be putting yourself in danger.

Here are a few points for you to check

All vehicles must display:

- A licence plate to the rear of the vehicle and a card in the front windscreen, which details the registration number of the vehicle, the vehicle type, expiry date of the licence and the number of passengers the vehicle is licensed to carry.
- The driver must wear an identity badge, which contains a photograph and date of expiry.

Who issues a licence?

The council issues a licence to protect you and reassure you that vehicles and drivers are suitable to operate. To obtain a licence all vehicles must have an MOT and fitness certificate. Drivers must have a medical examination and a police check and vehicles must have current insurance to cover them for this type of work.
